

## Table of Contents

<b>PADEP ENVIRONMENTAL ASSESSMENT CHECKLIST</b>	<b><u>PAGE</u></b>
<b>EXECUTIVE SUMMARY</b>	<b>ES-1</b>
<b>I. PREVIOUS WASTEWATER PLANNING</b>	<b>1</b>
A. Identify and Discuss Existing Wastewater Planning	1
1. Previous Act 537 Planning	1
2. Planning not done in Accordance with an Approved Implementation Schedule	2
3. Additional Planning that is Anticipated	2
4. Planning Completed via Official Plan Revision	3
<b>II. PHYSICAL AND DEMOGRAPHIC ANALYSIS</b>	<b>4</b>
A. Identify Planning Area, Municipal Boundaries and Township's Service Area Boundaries	4
B. Identification of Physical Characteristics of the Planning Area	4
C. Soils	5
1. Athol Series	5
2. Penn Series	6
3. Brecknock Series	7
4. Neshaminy Series	7
5. Soil Suitability Relative to Development	8
D. Geology	9
1. Geologic Features	10
2. Carbonate Bedrock	14
E. Topography	15
F. Potable Water	16
G. Wetlands	17
1. Alluvial and High Water Table Soils	18

<b>III.</b>	<b>EXISTING FACILITIES IN THE PLANNING AREA</b>	<b>21</b>
A.	Identify and Describe Municipal Sewerage Facilities in the Planning Area	21
	1. Location, Size, and Ownership	21
	2. Basic Treatment Process	22
	3. Problems with Existing Treatment and/or the Collection and Conveyance System	23
	4. Ongoing Upgrade or Expansion of Treatment Facilities	25
	5. Description of Operations and Maintenance Requirements	25
	6. Ultimate Disposal	29
B.	Needs Identification	29
	1. Types of Systems in Use	30
	2. Sanitary Survey	31
	3. Comparison of OLDS with System Appropriate for Soil, Geologic and Topographic Conditions	31
	4. Water Supply Survey	32
	5. Individual and Small Volume Community On-Lot Systems	33
C.	Wastewater Sludge and Septage Generation, Transport and Disposal Methods	33
	1. Location of Sources of Wastewater Sludge and Septage	33
	2. Quantities of Sludges and Septage Generated	34
	3. Present Disposal Methods, Locations, Capacities and Transportation Methods	34
<b>IV.</b>	<b>FUTURE GROWTH AND LAND DEVELOPMENT</b>	<b>35</b>
A.	Identification of Municipal and County Planning Documents	35
	1. Identification of Land Use Plans or Zoning Maps	35
	2. Identifying Zoning Regulations That Establish Lot Sizes	45
	3. Limitations and Plans related in Floodplain and Stormwater Management	45
B.	Describe Future Growth and Development	46
	1. Areas with Existing Development or Plotted Subdivisions	46
	2. Land Use Designations; Including Residential, Commercial, and Industrial Areas	47
	3. Future Growth Areas, Population, and EDU Projections	48

<b>V.</b>	<b>ALTERNATIVES TO PROVIDE NEW OR IMPROVED WASTEWATER DISPOSAL FACILITIES</b>	<b>54</b>
A.	Identify Alternatives	54
1.	Regional Wastewater Treatment Concepts	54
2.	Extension of Existing Municipal or non-Municipal Sewage Facilities to Areas in Need	54
3.	Continued Use of Existing Treatment Facilities Through Upgrade	55
4.	Need for New Community Sewage Systems	61
5.	Repair, Replacement, Upgrade of Collection and Conveyance System to Meet Projected Needs	62
6.	Alternative Methods of Collection/Conveyance	62
B.	Continued Use of Individual Sewer Disposal Systems	63
C.	Use of Small Flow Sewage Treatment Facilities	63
D.	Use of Community Land Disposal	63
E.	Retaining Tanks	64
F.	Sewage/Septage Management Program	64
G.	Non-Structural Comprehensive Planning	65
H.	No Action Alternative	65
1.	Water Quality and Public Health	65
2.	Growth Potential	66
3.	Community and Economic Conditions	66
4.	Recreational Opportunities	66
5.	Drinking Water Sources	67
6.	Other Environmental Concerns	67
<b>VI.</b>	<b>THE EVALUATION OF ALTERNATIVES</b>	<b>68</b>
A.	Consistency Determination for Technically Feasible Alternatives	68
1.	Clean Stream Law	68
2.	Chapter 94 Reports	69
3.	Federal Water Quality Act	69
4.	Comprehensive Planning	70
5.	Antidegradation Requirements	70
6.	State Water Plans	70
7.	Prime Agricultural Policy	71
8.	Stormwater Management	71
9.	Wetlands	71

	<u>PAGE</u>
10.    Protection of Plant and Animal Species of Concern	72
11.    Pennsylvania Historical and Museum Commission (PHMC)	72
B.    Resolutions of Inconsistencies	72
C.    Alternative Evaluation with Respect to Water Quality Standards and Effluent Limitations	73
D.    Cost Opinion	73
E.    Financing Alternatives	76
1.    Municipal Bond Issue	76
2.    Bank Loans	79
3.    Direct Capital Funding	80
F.    Need for Immediate or Phase Implementation	81
G.    Ability of the Township to Implement the Alternative	81
<b>VII.    INSTITUTIONAL EVALUATION</b>	<b>82</b>
A.    Analysis of Township; Past Actions and Present Performance	82
1.    Financial and Debt Status	82
2.    Available Staff and Administrative Resources	82
3.    Existing Legal Authority	83
B.    Institutional Alternatives Necessary to Implement Plan	83
1.    Need for New Municipal Departments or Authorities	83
2.    Functions of Existing or Proposed Authorities	83
3.    Cost of Administration, Implementability, and the Capability Of the Board to Meet Future Needs	84
C.    Administrative and Legal Activities to be Completed and Adopted to Ensure the Implementation of the Technical Alternative	84
1.    Legal Authorities of Incorporation	84
2.    Required Ordinances, Standards, Regulations, and Intermunicipal Agreements	84
3.    Provisions of Rights-of-Way, Easements, and Land Transfers	85
4.    Other Sewage Facilities Plan Adoptions	85
5.    Legal Documents	85
6.    Dates and Time Frames of 1 through 5 above	85
D.    Selected Institutional Alternative	85

<b>VIII. SELECTED WASTEWATER TREATMENT AND INSTITUTIONAL ALTERNATIVE</b>	<b>86</b>
A. Identify the Chosen Technical Alternative	86
1. Existing Wastewater Disposal Needs	86
2. Future Wastewater Treatment Needs	87
3. Operations and Maintenance Considerations	87
4. Cost Effectiveness	87
5. Available Management and Administrative Systems	88
6. Available Financing Methods	89
7. Environmental Soundness	89
B. Selected Capital Financing Plan	89

**APPENDIX**

Appendix A – Planning Area; Collection/Conveyance/Treatment Location Plan

Appendix B – Soils

Appendix C – Soils Suitability

Appendix D – Prime Agricultural Soils

Appendix E – Geology

Appendix F – Topography

Appendix G – Public Water Service Area

Appendix H – Hydric Soils

Appendix I – Sewer Service Area Plan

Appendix J – Existing WWTP Process Schematic; Proposed WWTP Upgrade Alternatives Schematics

Appendix K – Survey Methodology

Appendix L – OLDS Survey Results Summary

Appendix M – OLDS Survey Tabulation

Appendix N – OLDS Survey Form

Appendix O – Definition of Malfunctions

Appendix P – Graphic – OLDS Survey Results

Appendix Q – Graphic – Water Supply Survey Results

Appendix R – Township Zoning Map

Appendix S – Subdivision Location Plan and Planned Development

Appendix T – Public Sewer Service Areas

Appendix U – Potential Development Plan

Appendix V – Needs Correspondence From Contributing Municipalities

Appendix W – Chapter 94 Report Tables and Graphs

Appendix X – Potential Future Areas of Deficiency

Appendix Y – Septage Management Ordinance

Appendix Z – PNDI Correspondence

Appendix AA – PHMC Correspondence

Appendix BB – Cost Opinions, Present Worth

Appendix CC – Berks County Planning Commission Correspondence

Appendix DD – Amity Township Planning Commission Correspondence

Appendix EE – Proof of Publication and Public Comment

Appendix FF – Resolution of Adoption

Appendix GG – Approved Plan of Study and Task Activity Report
