

Master Watershed Steward Program

Berks & Schuylkill Counties

Do you want to learn more about our environment? Do you want to be a part of a caring network of volunteers teaching others & working in Berks & Schuylkill Counties?

2022 Classes now forming!

Master Watershed Stewards volunteer in the community to improve the health of our streams, rivers and other natural resources.

In-person Orientation & Welcome:

Thursday, March 3, 6:00 PM

Virtual Training Sessions:

Thursdays, March 10 - June 16 6:00 - 8:30 PM

Field workshops: select weekend days TBD

To become a Certified Master Watershed Steward you will receive 40+ hours of training from a wide range of professionals and educators in the following areas and more:

- Land use and impacts
- Stream ecology
- Groundwater
- Wetlands
- Wildlife
- Geology
- Invasive species
- Stormwater management
- Climate
- Native plants
- Soils
- Practical in-field workshops

Volunteer Opportunities Include:

- Stream restoration & clean-ups
- Habitat improvement projects
- Water quality monitoring
- Educating adults and youth about the environment
- Citizen Science data collection
- And so much more!
